The science of fighting gravity.

Protecting workers takes more than just keeping them from falling. Their tools also need to be protected at height.

That's why for over eight years, we've been pioneering an innovative line of products and solutions to help prevent dropped tools and equipment. From construction sites to oil rigs, we help make work environments safer and more productive by protecting workers from hazards that can result in personal injury, equipment damage and tool loss.

Certified and tested.

Our on-site ISO 17025 accredited lab allows us to simulate heat, cold, moisture, corrosion and abrasion—the challenges you face every day. We conduct dynamic and static strength tests, both in the field and in our ISO 90001 certified manufacturing facilities, ensuring you get high quality, reliable fall protection for tools.

Tool Tethers

3M™ DBI-SALA® Bungee Tethers

1500047

1500049

| Part #	Description	Load rating	Length (relaxed)	Length (stretched)	Qty/Case
1500047	Hook2Loop Bungee Tether	15 lbs. (4.5 kg)	32 in. (81.3 cm)	47 in. (119.4 cm)	1
1500048	Hook2Loop Bungee Tether	15 lbs. (4.5 kg)	32 in. (81.3 cm)	47 in. (119.4 cm)	10
1500049	Medium-Duty Hook2Loop Bungee Tether	35 lbs. (15.9 kg)	31 in. (15.9 cm)	52 in (132.1 cm)	1

Engineered to last.

Built to be more durable and long-lasting, our bungee tethers are third-party load rated and thoughtfully designed to help prevent dropped objects.

Self-Locking carabiner
The Hook2Loop Bungee Tether features a self-locking carabiner that prevents accidental opens and automatically closes.

Products with non-locking carabiners
Non-locking carabiners can be disconnected with a simple twist, potentially resulting in an accidental drop.
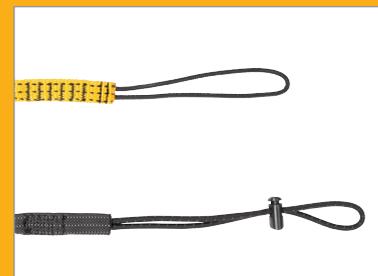

Barrel locks
Products with bungee-tether bottoms often utilize a barrel lock. These barrel locks can pose risks as they allow for improper tethering of tools.

3M™ DBI-SALA® Coil Tethers

Easy to clean and out of the way—exactly what a tether should be. The lightweight vinyl construction and compact design of our Coil Tethers makes them an excellent alternative to classic bungee tethers. Since we first introduced them to the marketplace, we've continued to refine and improve our line of coil tethers with feedback from actual workers in the field.

1500059

1500052	80 lbs. (36.3 kg)	72 in. (182.9 cm)	1

Tool Holsters

3M™ DBI-SALA® Smart Holsters

Your tools, at the ready.

Safer. Easier. It's not often that your job can be both, but 3M™ DBI-SALA® Smart Holsters are engineered for exactly that. These next generation tool pouches feature intelligent productivity features that are designed to keep your tool right where you want it at all times.

High-Visibility Reflectors

Products equipped with our high-visibility reflectors are easy to identify and locate, even when left in dark spaces. The highly reflective material stitched into the front and back of the holster makes it easily detectable with a flashlight even in low-light conditions.

Lights on

Lights off

The faster, smarter way to holster

Our Quick-Mag Technology speeds up your workflow and reduces how often your tools need to be holstered. This powerful magnetic tool staging system allows tools to simply stick to the holster, ensuring the tool you need is always at the ready.

Bottom drain vent

You're at your best when your tools are too. The integrated drain vent in our Smart Holsters helps protect your tools from rusting and your holster from dry rot. Even in rainy weather conditions, the drain vent helps keep the holster dry by allowing water to pass through at all times.

3M™ DBI-SALA® Single and Dual Tool Holsters

| 1500105* | 1500107 | 1500109 | 1500102 | 1500104 |

Hook2Loop Bungee Tether sold separately.

- Single and dual tool holsters are equipped with D-Rings that are load rated for 5 lbs. (2.3 kg).
- Several variants of these holsters come with Retractors (indicated below) (*see page 12*). Retractors are load rated for 1.5 lbs. (0.7 kg).
- Single and dual tool holsters feature High-Visibility Reflectors and the Quick-Mag Magnetic Tool Staging System.
- A bottom drain vent allows the holster to perform even in wet conditions.

1500123   1500121   1500120   1500122   1500119

- Innovative self-closure system traps objects inside, making it nearly impossible for objects to fall out once placed in the bag.
- Easy to retrieve objects since no opening or closing is necessary.
- Compatible with most tool belts.

Part #	Description	Qty/Case
1500119	Small Parts Pouch, canvas black	1
1500120	Small Parts Pouch, canvas camo	1
1500121	Small Parts Pouch, canvas orange	1
1500122	Small Parts Pouch, vinyl yellow	1
1500123	Small Parts Pouch, extra deep canvas black	1

Belt loops located on back of pouch.

The Small Parts Pouch is designed for small parts such as nuts, bolts, screws and nails.

Items are placed inside the pouch, at which point they are immediately secured by the self-closure system.

Even when the pouch is flipped vertically, the pouch traps objects inside, making it nearly impossible for them to fall out.

3M™ DBI-SALA® Utility Pouch

- Features two outside pockets for storing spud wrenches and two inner pockets for storing additional tools.
- Tools can be tethered to D-Rings on the inside and outside of the pouch.
- Adjustable side-release closure system helps prevent objects from falling out when the pouch isn't being used.

Part #	Product variant	Qty/Case
1500130	Utility Pouch with Zipper Closure	1
1500132	Utility Pouch	1

3M™ DBI-SALA® Inspection Pouch

- Designed for the safe transport and use of most multi-meters, air monitors, and other portable testing devices.
- An adjustable opening can be used to create a hands-free workstation off the hip or chest.
- Can be worn off a belt, or over the shoulder using the included shoulder strap.

Hands-free workstation from belt or shoulder.

Part #	Description	Qty/Case
1500131	Inspection Pouch	1

3M™ DBI-SALA® Tool Pouches

- Constructed from a heavy-duty canvas with an inner lining to help prevent punctures.
- Multiple inner pockets accommodate a number of tools while an integrated D-Ring makes tethering tools incredibly easy.
- Available in standard and extra-deep variations.
- The standard pouch uses a hook and loop closure system that can be locked open during use.
- The extra-deep Tool Pouch features a magnetic closure system as well as a side-release buckle.

Part #	Width	Height	Retractors/triggers	Qty/Case
1500124	7.5 in. (19.1 cm)	11 in. (27.9 cm)	-	1
1500125	7.5 in. (19.1 cm)	11 in. (27.9 cm)	2 retractors	1

1500129	8.75 in. (22.2 cm)	13 in. (33 cm)	2 triggers	1

Spill Control Buckets

3M™ DBI-SALA® Safe Buckets

With an integrated closure system that helps prevent dropped objects, our Safe Buckets are designed to be the perfect companion for workers at height carrying heavy loads.

Closure systems

Every Safe Bucket features either a drawstring or a locking hook and loop closure system that acts as an extra layer of spill-protection during transport and lifting. Colorful indicator tabs provide quick visual cues to indicate whether the bucket is in lockdown mode or easy-access mode.

Built-in connection points

The Safe Bucket was engineered for use with tools at height, and includes six connection points for tethering.

High-quality canvas and vinyl

Safe Buckets are available in both heavy-duty canvas and vinyl variants that are load rated for 100 lbs. and 250 lbs. respectively.

1500134   1500140

3M™ DBI-SALA® Standard Safe Bucket models

Integrated carabiner and hoisting strap

Instead of rope, which is susceptible to fraying, a heavy-duty hoisting/shoulder strap is built into every Safe Bucket. Each bucket is also equipped with a high-quality and lightweight aluminum twist-lock carabiner load rated for 30 kN (6,700 lbs.). There is no need to worry about a knot failing, or a non-locking carabiner which may slip off at a connection point.

Puncture resistance

Where you work, durability is non-negotiable. That's why every Safe Bucket features hard composite plating at the bottom to protect it from accidental punctures. A leather sleeve also covers the inserts, protecting them from the elements and harsh work environments.

Part #	Load rating	Closure system	Body material	Height/diameter	Capacity	Qty/Case
1500133	100 lbs. (45.4 kg)	Drawstring	Canvas	15 in. / 12.5 in. (38 cm / 31.75 cm)	1840 in.^{3}	1
1500134	100 lbs. (45.4 kg)	Hook and loop	Canvas	15 in. / 12.5 in. (38 cm / 31.75 cm)	1840 in.^{3}	1
1500139	250 lbs. (113.4 kg)	Drawstring	Vinyl	15 in. / 12.5 in. (38 cm / 31.75 cm)	1840 in.^{3}	1
1500140	250 lbs. (113.4 kg)	Hook and loop	Vinyl	15 in. / 12.5 in. (38 cm / 31.75 cm)	1840 in.^{3}	1

Spill Control Buckets

3M™ DBI-SALA®
Hard-Body Safe Bucket Insert

■ Converts a standard soft-body Safe Bucket into a hard-body Safe Bucket.

■ Our reusable hard-body Safe Bucket insert keeps your Safe Bucket standing upright, making it easier to stage tools and stay productive.

■ Integrated inner pockets allow tools to be holstered and organized quickly.

Part #	Description	Qty/Case
1500141	Hard-Body Safe Bucket Insert	1

3M™ DBI-SALA® 5 Gallon Safe Bucket

■ Used to transport standard 5 gallon buckets.

■ 5 gallon plastic buckets clip into the Safe Bucket with a unique hook system.

■ When not being used, the Safe Bucket can be flattened for easy storage.

■ Locking hook and loop closure system helps ensure that there are no accidental spills during lifting and transportation.

Plastic bucket not included.

Part #	Description	Load rating	Qty/Case
1500135	5 Gallon Safe Bucket	100 lb. (45.4 kg)	1

3M™ DBI-SALA® Long Safe Buckets

■ Transport scaffolding and longer tools safely and easily with our Long Safe Buckets.

■ More effective than hand-to-hand transportation or using rope with hitch knots.

■ Hook and loop top closure system keeps poles secure during lift.

■ Equipped with a double twist-action locking carabiner for added security.

Part #	Length	Closure system	Load rating	Qty/Case
1500136	48 in. (122 cm)	Hook and loop	100 lbs. (45.4 kg)	1
1500137	72 in. (183 cm)	Hook and loop	100 lbs. (45.4 kg)	1
1500138	120 in. (305 cm)	Hook and loop	100 lbs. (45.4 kg)	1

Wristbands

3M™ DBI-SALA® Pullaway Wristbands

Pullaway wristbands are designed for those who work around rotating or moving equipment. They feature an elastic strap to conform to the wearer's wrist size automatically and come in standard and slim varients.

Part #	Description	Qty/Case	Load rating
1500070	Pullaway Wristband, small	1	5 lbs. (2.3 kg)
1500071	Pullaway Wristband, small	10	5 lbs. (2.3 kg)
1500072	Pullaway Wristband, medium	1	5 lbs. (2.3 kg)
1500073	Pullaway Wristband, medium	10	5 lbs. (2.3 kg)
1500074	Pullaway Wristband, large	1	5 lbs. (2.3 kg)
1500075	Pullaway Wristband, large	10	5 lbs. (2.3 kg)
1500076	Pullaway Wristband, small (slim)	1	5 lbs. (2.3 kg)
1500077	Pullaway Wristband, small (slim)	10	5 lbs. (2.3 kg)
1500078	Pullaway Wristband, medium (slim)	1	5 lbs. (2.3 kg)
1500079	Pullaway Wristband, medium (slim)	10	5 lbs. (2.3 kg)
1500080	Pullaway Wristband, large (slim)	1	5 lbs. (2.3 kg)
1500081	Pullaway Wristband, large (slim)	10	5 lbs. (2.3 kg)

3M™ DBI-SALA® Adjustable Wristbands

Adjustable Wristband

Our adjustable wristband uses a hook and loop system to adjust to any wrist size. An elastic band helps ensure a comfortable fit.

Adjustable Wristband with Cord

Adjusts to any wrist size using a hook and loop system. A built-in cord is used to quickly attach and stage tools directly to the wristband.

Adjustable Wristband with Retractor

Adjusts to any wrist size. A built-in retractor with an attached trigger can be used to quickly work with many hand tools.

Part #	Description	Qty/Case	Load rating
1500082	Adjustable Wristband	1	5 lbs. (2.3 kg)
1500083	Adjustable Wristband	10	5 lbs. (2.3 kg)
1500084	Adjustable Wristband with Cord	1	5 lbs. (2.3 kg)
1500085	Adjustable Wristband with Cord	10	5 lbs. (2.3 kg)
1500086	Adjustable Wristband with Retractor	1	1.5 lbs. (0.7 kg)
1500087	Adjustable Wristband with Retractor	10	1.5 lbs. (0.7 kg)

Falling Objects

Direct Impact

What is the force of a single impact?

Two determining factors are the weight of the tool and the height of which it's dropped. The chart below is an example of an 8.3 lb wrench dropped from 5 ft to 500 ft and the impact force that is generated.
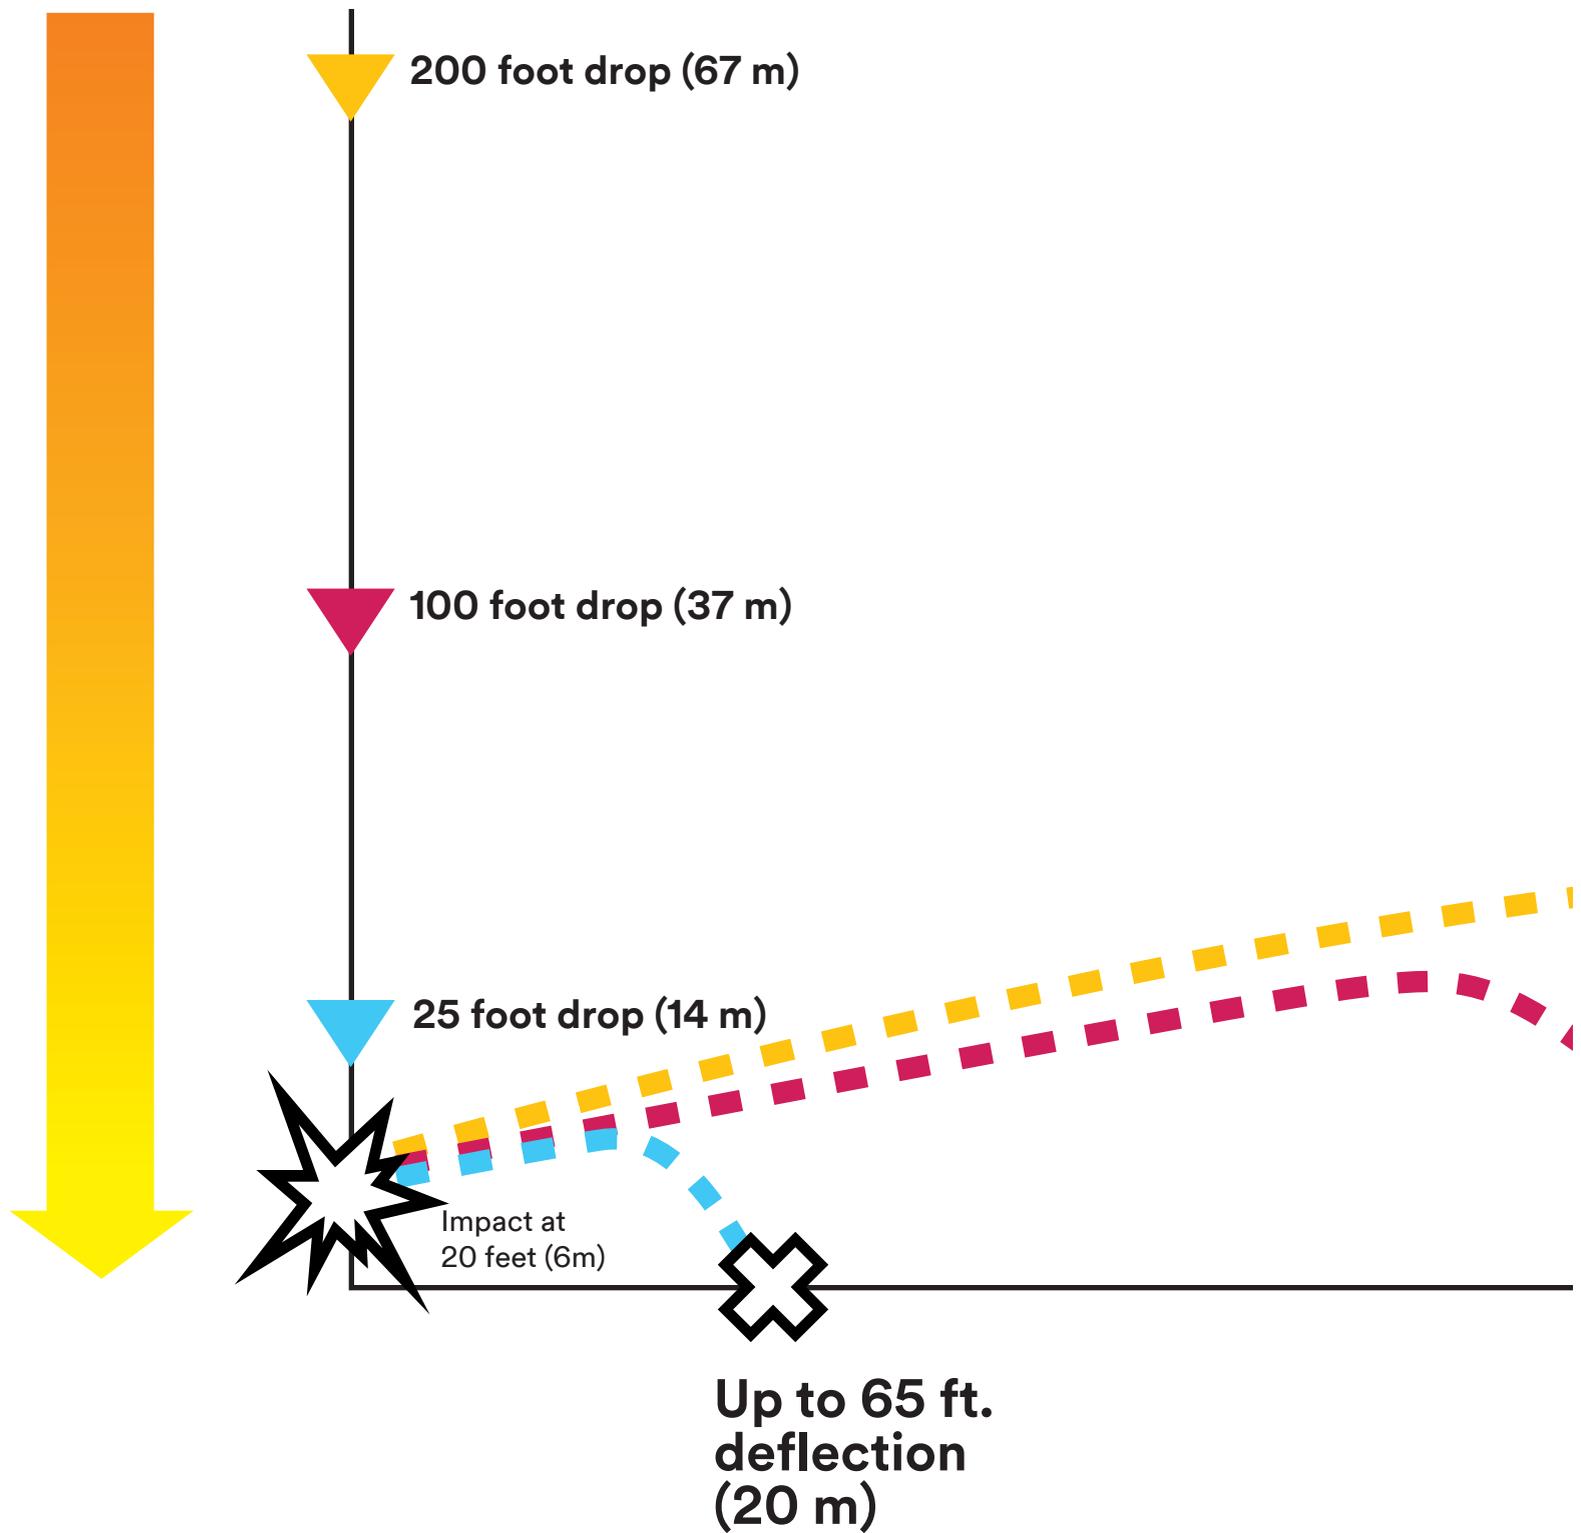

Impact of an 8.3 lb. (3.6 kg) dropped wrench*

Drop Height		Speed		Impact Force	
Feet	Meters	MPH	KPH	Lbs.	Newtons
5	1.5	12	19	166	738
10	3	17	27	332	1477
25	7.6	27	43	830	3692
50	15.2	39	63	1660	7384
100	30.5	55	88	3320	14768
200	61	77	124	5540	29536
300	91	95	152	9960	44304
400	122	109	175	13280	59072
500	152	122	196	16600	73840

*Assumes a 3 in. (7.6 cm) deceleration distance for purposes of this calculation of impact force.

Falling Objects

Deflections

200 foot drop (67 m)

100 foot drop (37 m)
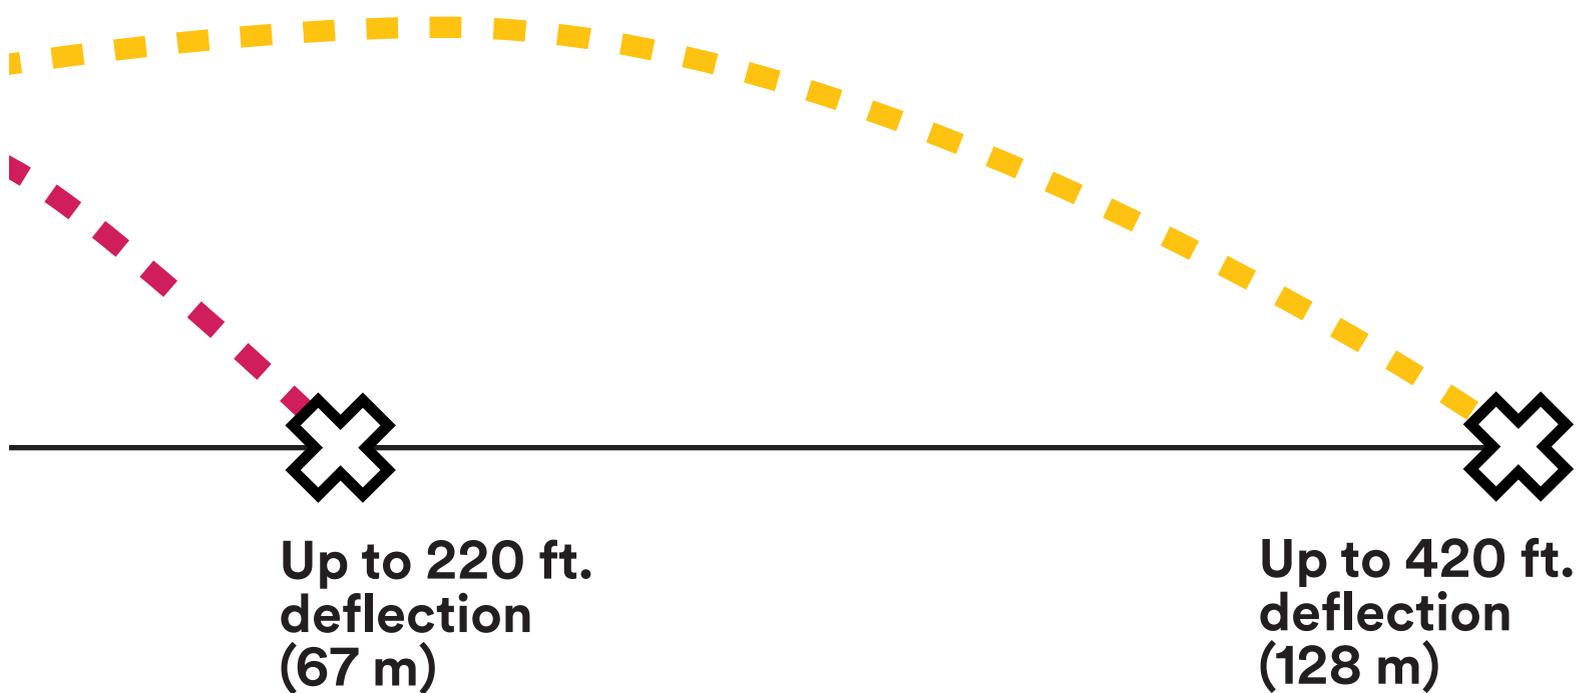

25 foot drop (14 m)

Impact at
20 feet (6m)

**Up to 65 ft.
deflection
(20 m)**

Objects don't just fall straight down!

The diagram below illustrates how far an 8.3 lb. (3.6 kg) wrench could theoretically deflect after hitting a bar 20 ft. (6 m) off the ground.

Up to 220 ft. deflection (67 m)

Up to 420 ft. deflection (128 m)

3M Fall Protection Training

Dropped Object Prevention Competent Person

Objects dropped from height can result in severe personal injuries on a jobsite, equipment damage and tool loss, yet these hazards are often overlooked when planning workplace safety.

This interactive course teaches how to implement the ABC's of Fall Protection for Tools. It's recommended for all individuals who work at height.

Topics include:

- Common dropped objects hazards
- ABC's of Fall Protection for Tools
- Passive dropped object protection systems
- Tool restraint and tool arrest systems

Learn more about Fall Protection for Tools and other training opportunities at **3M.com/FallProtection.**
